

The classic locker: S 2000 *Classic*

The Classic ventilation concept:

works perfectly even in this locker variant due to the recessed base – and provides much better ventilation than required by the DIN 4547 standard !

The air inlet in the rear bottom of the locker ensures sufficient ventilation and drying in the compartment (see graphic). In lockers with bases, ventilation is ensured via openings above the recessed base.

For additional furnishing examples from a market leader, please see the Classic product series brochure.

The timeless basic range.

Turning bolt latch:
for padlocks with a bolt size of 4.5 to 6.5 mm

Cylinder lock:
with two keys, also available as a master key system.

SAFE-O-MAT lock:
as a deposit or token-operated lock with twin coin function.

Durable steel structure:
doors hinged right, borne on bolt hinges with vertical box reinforcement, louvers and stamped in label holder.

Lockers

Lockers 382

Multipurpose lockers 390

Double-tier lockers 392

Assembled box lockers 394

Slot-in hat shelf and coat rail: with 3 sliding hooks for each compartment.

Bottom of compartment can be swept out smoothly: (models 8030 and 8040 with cleaning openings).

Locker feet made of plastic: increased protection against corrosion of the locker!

Height adjustment of the locker feet: optional, see page 399.

S 2000 Classic

The S 2000 Classic series offers:

- Sturdy steel construction with steel fronts
- 2 compartment widths, 5 different box heights
- Sub-frame alternatively with feet, base, or bench
- Ventilation via CVL (Classic Ventilation Concept)
- Doors hinged right, borne on bolt hinges with vertical box reinforcement, louvers and stamped in label holder
- Standard doorstop silencer
- Interior is easy to clean because compartment bottom can be swept out smoothly (Models 8030 and 8040 with cleaning openings)
- Slot-in hat shelf and wardrobe rail made of oval profile with 3 twist-proof sliding hooks for each compartment
- Turning bolt latch for padlock as practical basic fitting
- **Locker feet (e.g. in model 8010) made of plastic = improved protection of the locker against corrosion!**
- Feet in light gray with body color RAL 7035, black finish with all other body colors
- Benches with adjustable floor gliders for easy level adjustment (10 mm)

Door opening limiter 90°

Price per door

Design	90°
Order no.	8505-02
+ Addtl. charge €	+ 11,-

Without door opening limiter

110°

- + For specifically assigned compartments
- + More freedom of movement for users
- Forceful over-extension of the door by opening it too far is possible
- Damage to usable space of adjacent locker is possible

With door opening limiter 90°

90°

- + Recommended if lockers are frequently used by different persons
- + Prevents forceful over-extension of the door by opening it too far
- + No overlap with usable space of adjacent locker
- Less freedom of movement for users
- Cannot be used at emergency exits

The S 2000 Classic accessory range offers:

The difference lies in the details! C+P offers a multitude of practical additional fittings and upgrading components. For you this means:

- All requirements can be met for a customized result
- Lockers "made-to-measure" for the specific location
- All parts can be ordered separately (no additional charge packages, you only pay for what you need!)
- Many parts can also be retrofitted
- Excellent price-performance ratio thanks to C+P modular system
