

The multi-talented one: S 3000 *Evolo*

NEW

The Evolo ventilation concept:

It ensures effective ventilation and drying of clothing with steel doors. Thanks to its air flow behavior, it works without additional ventilation equipment. Uniform ventilation of the entire interior is guaranteed even in lockers with bases (see graphic)!

The air inlet in the rear bottom of the locker ensures sufficient ventilation and drying in the compartment (see graphic). In lockers with bases, ventilation is ensured via openings above the recessed base.

Increased anti-burglary protection thanks to extremely warp resistant doors! This is ensured by closed profiles on the sides. The doorstop silencers are a standard feature.

New door opening limiter 90°: Made from special heavy-duty, plastic-coated stainless steel cable.

Custom-made for specific applications.

Ergonomically designed turning bolt latch: With door protection (standard) for lock bolt size 6-8 mm.

Feet made of plastic for optimum corrosion protection: They consistently underpin the linear design and have a protective sleeve that covers the adjusting screw when the optional height adjustment is used. An ingenious feature!

Lockers

Lockers 404

Multi-purpose lockers 414

Double-tier lockers 416

Assembled box lockers 420

Open wardrobes 424

Optional integration of numbering: With self-adhesive film in the embossed label holder (optional).

Exchangeable fronts: (can also be retrofitted!) Choice of steel or decor doors (MDF or HPL). Door opening limiters are a standard feature with decor doors.

Double coat hooks For ease of operation, with integrated space for coat hangers.

Easy-to-clean ventilation hole pattern: Thanks to the smooth outer front (no protruding louvers).

S 3000 *Evolo* **NEW**

The S 3000 Evolo series offers:

- Increased anti-burglary protection thanks to extremely warp-resistant doors and a 54° slope on the body interior – for high stability and an easy, convenient way to remove clothing
- Durable steel structure
- 2 compartment widths, 5 different box heights
- Sub-frame alternatively with feet, base, storage box, or bench
- Ventilation ensured by EVL (Evolu Ventilation Concept)
- Doors hinged right, borne on hinge pins, with easy-to-clean hole pattern and embossed label holder for optional integration of numbering
- Convenient doorstop silencers for pleasant closing behavior

Lockers

- Decor doors (MDF and HPL) as standard with door opening limiter 90° made from special heavy-duty, plastic-coated stainless steel cable
- HPL decor doors available in white, silver gray, birch, cherry, and wenge
- Exchangeable front concept with steel or MDF decor doors, can also be retrofitted
- Interior is easy to clean because compartment shelves can be swept out smoothly (models 48030/48040 with cleaning openings)
- Hat shelf with rear anti-roll support and sturdy wardrobe rod made of oval profile, 3 twist-proof hooks with system holder, e.g. for coat hangers or movable partitions
- Ergonomic safety turning bolt latch for padlock with lock guard as practical basic fitting
- **Locker feet (e.g. in models 49010) made of plastic = improved corrosion protection!**
- Feet in light gray with body color RAL 7035, in black with all other body colors
- **Slot-in shoe shelf, can be easily retrofitted by users**
- **Optimal air circulation via predefined ventilation spaces in front of and behind the hat shelf**

Double-tier lockers with turning bolt latches

Lockers, double-tier, 2 compartments on top of one another, 1 door, coat rail, and 3 sliding hooks per compartment, doors with turning bolt latch for padlock. Bench slats for models 49350 made of beech as standard design, approx. 60 x 35 mm side-face, planed on all sides, rounded at the top, finished with clear varnish, with natural color differences. Bench slats made of plastic in white, light gray, dark gray, or black gray available for no additional charge (standard color light gray). Standard color of the bench bases: Black gray RAL 7021. Benches with adjustable floor gliders for easy level adjustment (10 mm).

Locker and bench are delivered separately for easy DIY assembly.

For general description of the lockers see page 404/405.

The C+P safety turning bolt cannot be overwound because it "spins" when it is closed, thus preventing tampering!

The cylinder lock engages only when the padlock is removed, and the door can be opened simply by turning the knob. For bolt lock size 6-8 mm.

Standard in all Evolo lockers!

Order no. 49350-30

Lockers with bench underneath

+ Accessories

Additional fittings, locks 429 - 435

The S 3000 Evolo accessory range offers:

The difference lies in the details! C+P offers a multitude of practical additional fittings and upgrading components. For you this means:

- All requirements can be met for a customized result
- Lockers "made-to-order" for the specific location
- All parts can be ordered separately (no additional charge packages, you only pay for what you need!)
- Many parts can also be retrofitted
- Excellent price-performance ratio thanks to C+P modular system

Wet room design*

electrolytically galvanized, enamel coated, compartment widths 300 and 400 mm, additional charge per compartment width

Play it safe – with the new standard C+P safety turning bolt

The problem

Conventional turning bolt latches are highly susceptible to break-ins because the latch can be overwound.

The burglar uses the padlock as a lever (the longer the shackle, the greater the leverage). Overwinding destroys the locking mechanism and opens the way to the locker compartment.

The C+P solution

The C+P safety turning bolt cannot be overwound because it "spins" when it is closed, thus preventing tampering!

The cylinder lock engages only when the padlock is removed, and the door can be opened simply by turning the knob. For lock bolt size 6-8 mm.

Mirror face plates

Evo offers a range of different end solutions to enhance both the function and the appearance of the ends of rows of lockers, which often go unused.

The panels with integrated mirrors with or without deposit areas, with sockets or lighting, allow for customized options for this space.

They can either be attached to lockers or simply to the walls of a room.

End face plate

to be attached to the side of the locker row, for locker depths of 500 mm
