** insulation performance (check Design Guide)

Polar Single Glazed Fire-Rated is available in straight runs and achieves up to 30/0 fire rating. This system is designed with the minimum of components, thus facilitating speed of installation without compromising structural stability and rigidity. Doorsets comprise of aluminium doorframes with timber or glass doors.

Achieving impressive performance alongside its ability to be integrated with solid partitioning and other Komfort systems using optional head components, this system creates a stunning environment which conforms to meet modern day needs.

Think partitioning, think Komfort.
