NETWORKED LOCK MANAGEMENT

Curve™

An Upgraded Classic

A model of modern design, a game changer in

storage security, the most popular lock in Digilock

history returns with advanced technology upgrades.

Curve revisits a classic and gives it every

modern advantage.

Digilock®

Wire-free Retrofit with Ease

Ideal for lockers and cabinets, Curve Keypad electronic Smart Lock solutions secure your workplace with ease. With shared and assigned use capability, system-wide compatibility, wireless connectivity, and 24/7 anytime/anywhere cloud-based management, Curve Keypad Smart Locks offer you a complete secured storage solution—whether your business is just starting out or ready for global expansion.

With DigiLink, Digilock's cloud-based lock management system, you can effortlessly update lock features and functionality from your office or your beach house.
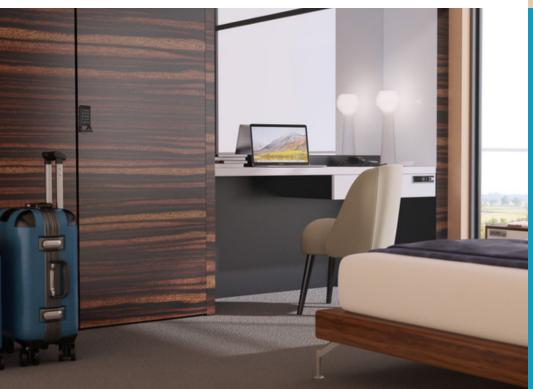

- Monitor locks via a user-friendly, real-time dashboard.

- Change lock status and check reports.

- Assign unlimited users and allow access with a code or Mobile ID.

Digilock's flawless Curve keypad lock, now Bluetooth-enabled, consistently sets the standard for security.

Engineered for Anywhere

From inspiration to installation, we partner with our customers in a wide variety of industries to ensure that their facilities offer the latest in personal security solutions, providing convenience and peace of mind.

- 2-year warranty with lifetime support

*Based on average use.

Security Your Way

(1) APPEARANCE

Choose from two elegant finishes, Brushed Nickel or Matte Black.

Finish Options

(2) FUNCTIONALITY

Choose the Use Case That's Right for You.

SHARED USE

A simple day-use solution, shared use functionality lets the user pick any available storage space and enter any 4-7 digit code to lock and the same code to unlock. When the current user is done and the storage space is unlocked and vacated, it's open and ready for the next user and code.

OR

ASSIGNED USE

If you need to assign storage for a longer period of time, assigned use allows management to program a single or multiple codes to the lock for the user or users. Each user enters the assigned 4-7 digit code to open. Then the auto-relock feature is activated requiring the user to simply shut the door.

Locking Options for Shared and Assigned Use

DUAL-USE DEADBOLT

Features a 1/2" (12.7mm) motorized deadbolt designed for either shared or assigned use functionality.

SHARED USE   ASSIGNED USE

AUTO-RELOCK DEADLATCH

Features a 1/2" (12.7mm) motorized deadlatch designed for assigned use functionality.

ASSIGNED USE ONLY

Speak to a Digilock representative for more information on the best locking option for your use.

DigiLink™
